

Intelli-Credit

AI Powered Corporate Credit Appraisal Engine

Team Name : ByteForce

Team Members : Deepak , Sharan

Problem Context

Current Manual Process

Data Paradox

Fragmented Sources

Human Bias

Missed Early Warnings

01

Collect Documents

Day 1-5

02

Manual PDF Reading

Day 6-10

03

Cross Verify Financials

Day 11-16

04

Research news/Litigation

Day 17-22

05

Write CAM Memo

Day 23-31

Total : 4-5 Weeks

Our Solution

Input Data -> Ingestor -> Research Agent -> Scoring Models -> CAM Document

Data Ingestor

Unstructured Document Parsing

- OCR on scanned Indian PDFs (annual reports, legal notices, sanction letters)
- Extracts financial commitments, risk clauses, and covenant terms
- Handles multi-language text (Hindi + English mixed)
- Databricks style Pipeline

GST vs Bank Statement Cross-Check

- Auto-reconciles GSTR-3B declared revenue against bank credit
- Flags circular trading patterns and revenue inflation
- Detects cash deposit followed by advance payment cycles

Research Agent

The Digital Credit Manager — Automated Secondary Research + Primary Insight Portal

Secondary Research

- Promoter background & litigation history
- Sector headwinds (e.g., new RBI/NBFC rules)
- MCA filing status & director changes
- e-Courts portal legal dispute scraping
- News sentiment analysis (last 3 years)

Primary Insight Portal

- Credit officer inputs qualitative notes
- "Factory at 40% capacity" → adjusts score
- Management interview observations
- Site visit findings integrated into risk
- AI explains how inputs shift final verdict

Recommendation Engine

The Five C's of Credit

Character

Promoter track record, litigation, CIBIL history

Capacity

Revenue, EBITDA margins, debt service coverage

Capital

Net worth, leverage ratios, equity contribution

Collateral

Security value, charge creation, coverage ratio

Conditions

Sector outlook, RBI norms, market conditions

SAMPLE OUTPUT

Decision: **CONDITIONAL APPROVE**

Loan Limit: **₹ 8 Cr**

Interest Rate: **10.25% p.a.**

Risk Grade: **B (Moderate-High)**

Explanation:

Conditionally approved pending collateral verification.

Charge creation required within 30 days.

Debt service coverage marginal at 1.1x.

System Architecture

Architecture Diagram

Tech Stack

Indian Context Sensitivity

Built Specifically for India's regulatory and financial ecosystem

GSTR-2A GSTR-3B Reconciliation

Detects mismatches between ITC claimed and actual supplier filings to spot fraud

MCA21 & ROC Filings

Monitors charge creation, director changes, and annual filing compliance status

E-Courts Litigation Scraping

Scans civil & commercial courts for pending cases against company or promoters

CIBIL Commercial Reports

Integrates commercial credit scores and trade references for SME/mid-corp borrowers

RBI / SEBI Regulation Awareness

Tracks sector-specific regulatory changes (e.g., NBFC norms, priority sector rules)

Sanction Letter Parsing

Extracts existing bank credit limits and covenants from multi-bank sanction letters

3 Differentiators That Make Intelli-Credit Bank-Grade

- **GSTR-2A vs 3B Reconciliation Engine:**-Auto-compares supplier-filed GSTR-2A against company-claimed GSTR-3B to detect revenue inflation and fake ITC claims
- **Promoter Network Graph:**-Uses MCA21 director DIN data to build a visual graph of every company a promoter controls — exposing circular lending, shell companies, and cross-collateralization risk
- **Confidence Score + RBI-Compliant Human-in-the-Loop:**-Instead of a black-box yes/no, Intelli-Credit outputs a confidence-banded recommendation with mandatory human review triggers — fully aligned with RBI's 2024 guidelines on AI in credit decisioning

Intelli-Credit doesn't replace the credit manager — it makes them 10x faster and gives regulators everything they need to sleep at night.

Evaluation Criteria

Extraction Accuracy

OCR + LLM extraction pipeline handles scanned, multi-column, Hindi-English Indian PDFs with >80% field accuracy on tested documents

Data Sources

Over 6+ Documents has been Tested : Bank Statements(40) , GSTR-3B(35) , Annual Reports(32) , MCA Data(27) , News Articles(15)

ML Models used

XGBoost , Random Forest , Logistic Regression , SHAP

Indian Context Sensitivity

Native support for GSTR-2A/3B reconciliation, CIBIL Commercial, MCA filings, RBI norms, and regional language documents

Working Prototype (Video)

The screenshot displays a web browser window with the title "NexusBank — Corporate Lending". The address bar shows a file path: "File C:/Users/thadu/AppData/Local/Packages/5319275A...". The browser's toolbar includes back, forward, and search icons, along with a "Chat" button. The main content area features the "NEXUSBank" logo in the top left and a "← Back" button in the top right. The central focus is the "Officer Sign In" form, which is titled "Officer Sign In" and includes the subtitle "Authorised personnel only. All access is monitored." The form contains three input fields: "EMPLOYEE ID" with a placeholder "e.g. NB-2024-001", "PASSWORD" with a placeholder "Enter your password", and "BRANCH CODE" with a placeholder "e.g. MUM-01". A prominent yellow button at the bottom of the form is labeled "Sign In to Bank Portal".
